LARGE SCALE MODEL RAILROADING

WCRR was founded in 1975 as a place where live steamers could gather to share their interests in model railroading and steam railroad history.

We are dedicated to providing a historical account of what early steam and diesel railroading was like – the smells, sights and sounds – only on a smaller scale.

Our steam and diesel powered trains are 1:8 scale replicas – large enough for the whole family to ride!

We hope to see you soon! All aboard!

OUR HISTORY

Founded in 1975

Willow Creek Railroad Museum began as an added attraction to Antique Powerland in 1975. Just two individuals initiated it and started with 600 feet of track in a farm field with no trees, green grass or buildings.

In 1993 our club became an official organization and in 1997 we received our official Non-Profit status from the IRS as well as a long-term lease agreement with Antique Powerland.

Heading Two

Since the start in 1975, more people became interested in the live steam modeling hobby and as this interest grew, so did the membership and the layout. By the mid '90's there were over 20 members running a layout of approximately 2500 feet of track which included a small cabin, roundhouse, bridges and a creek with green grass and landscaping.

In 1998 the members started the planning stages of a completely new layout which would more than double our trackage. In 2001 we completed the track portion of our new plan to enlarge our track to over 5000 feet, which allowed us to handle larger live steam engines and carriages. We were in the middle of a prototypical re-theme. This first phase of the project took almost five years to complete - although no layout is ever complete.

Heading Three

Since the main track was installed we have continued to upgrade and expand our railroad. The upgrades have included more storage for trains with the addition of additional storage tracks and a covered and a period station cover. We have also been installing a block signal system which includes signal bridges.

Projects for the near future include a new creek and waterfall, roundhouse replacement, additional signal upgrades, the East Side Industrial Loop and clubhouse remodel to include a false front to match the period style initiative underway on the Powerland campus.

VOLUNTEER & DONATION OPPORTUNITIES

Willow Creek Railroad Museum is a non-profit, 501c3 organization, gifts to which may be deductible as charitable contributions for federal income tax purposes. [Donate](#).

WCRR is an all-volunteer organization. All activities of management, administration, maintenance, hosting, restorations, construction, and landscaping are staffed by volunteers.

Please help support our major donors. Without their generous contributions, WCRR would not be as large as we are today.
